

**DRIVE
LIFE**

SKILLS FOR TEENS

Every day, eight
American teens die in
motor vehicle accidents.
Good training greatly
reduces accident risk.

MASTER YOUR DRIVE!

ADVANCED CAR CONTROL CLINIC

skid control • emergency maneuvers • winter driving

Epping, NH

Sunday, 16 February 2024

8:00 am - 4:30 pm

Brookvale Pines Farm/The Tack Shack
154 Martin Rd, Fremont NH

**This is the same training we provide to elite military,
corporate security, dignitary protection, and racers at a
hugely discounted rate! (compare to \$1800/day!)
Car control training saves lives!*

***"I highly recommend this class for all teens
and, honestly, adults too!"***

Nancy H, police officer

“This class is essential! My son loved the way it was taught and that he could do the course with his truck!”

John P, proud parent

“Even as a seasoned driver, that first day in my Jeep completely changed the way I understood driving, at limits in a safe environment taught me so much!”

Scott B, adult student

How the clinic works ...

- students use their personal vehicle (we recommend two students/vehicle)
- class size is limited to 16 vehicles and 32 students
- students must have valid drivers license
- vehicle must be registered, inspected, and insured
- all participants must sign standard release of liability
- clinic will be conducted on gravel or snow/ice surface
- training will be focused on skid control and accident avoidance
